The Ornament King™
Fine European Glass Ornaments

The Ornament King

It takes a human breath to bring these creations to life

WELCOME!

Welcome to The Ornament King's (formerly HeARTfully Yours) fourth collection of exclusively European-made artisan glass ornaments. Artist Christopher Radko* is thrilled to bring you this boutique collection of holiday JOY. Some pieces are even individually numbered limited editions. All are genuinely made in Europe. None are mass-produced in China or other places.

These European ateliers keep the olden 19th century traditions of glassblowing alive, with the moms and dads still involved, and the kids trying to stay out of trouble. Each creation takes 7 days to make and is lined in sterling silver! Being handmade, every ornament is original and truly a work of art. We even have an eyelash lady, whose sole job is to paint intricate eyelashes on the snowmen and Santas. These ornaments are legacy memory-makers, to be cherished by your family for generations to come.
